1 User Login

Dashboard v1.0

Upon the entry of your username and password, an automatic redirection to the dashboard for which you have permission will be initiated.

2 Super Admin

In the Super Admin Dashboard, the super admin has the capability to view various user dashboards. There are four types of dashboards available: RO, RM, CM, and HOD. To access a specific user's dashboard, follow these steps:

2.1 Select User Role

Choose the desired user role (RO, RM, CM, or HOD) from the available options.

2.2 Enter Specific User Name

Input the username of the specific user whose dashboard you wish to access.

2.3 Press the "Details" Button

Click the "Details" button to initiate the process.

2.4 Verification Process

The system will perform a verification check to determine if the specified user and role combination exists in the people allocation logic.

2.5 Outcome Handling

If the user and role match the people allocation, you will be automatically redirected to the corresponding dashboard. In the event of a mismatch or if the user is not found, a message will be displayed indicating that the user was not found.

3 HoD Dashboard

4 CM Dashboard

5 RM Dashboard

RM Name: Md. Razaul Karim Pin: 1190501847
